Joseph Kim

Product Designer (UX/UI)

josephkim.work | joekimsjh@gmail.com | 425.286.4155 | linkedin.com/in/joseph-kim-8340a12a9 | San Diego, CA

SUMMARY

Product designer with hands-on experience across UX research, wireframing, prototyping, and shipped end-to-end products, including a live web app and a production business website, plus the subscription and upgrade experience for an AI design tool. Comfortable owning design from concept through deployment, translating ambiguous problems into clear user flows, and partnering directly with stakeholders in place of a formal PM handoff. Seeking product design roles in fintech, healthtech, or other product-led companies.

SKILLS

Design: User Research, Usability Testing, Wireframing, Prototyping, User Flows, Information Architecture, Design Systems, Competitive Analysis, Interaction Design, Accessibility (WCAG basics), Cross-Functional Collaboration, Stakeholder Management

Tools: Figma, Cursor, Claude Code, Lovable, ChatGPT, Xcode, Firebase, GitHub, Vercel, Squarespace

SELECTED PROJECTS

Valence — AI Design Tool | *Product Designer* | *Figma, Claude Code* 2026

- Designed the subscription and upgrade experience for an AI design tool from scratch, working directly with founders and engineers, covering usage warnings, the credit limit, plan upgrades, top-ups, and purchase confirmation.
- Placed usage warnings and the upgrade path in the chat, where most of the interaction happens: a usage ring, an approaching-limit notice, and a blocking notice at the limit that leads straight to Plan & Billing.
- Prototyped settings as both a modal and a page, then built the flow in the real app myself with Claude Code; the team chose the page, and a beta is planned for the end of 2026.

iknowball — Web Game | *UX/UI Designer & Solo Developer* | *React, Vite, Vercel, Claude Code* 2026

- Designed and shipped a full-stack web game from concept to deployment, drafting real NBA rosters across six decades and grading simulated seasons against real per-season player statistics.
- Conducted two rounds of user research (four in-depth interviews, a 20-person structured playtest) to surface usability and content gaps, then directed 15+ shipped iterations including a rebuilt 3D roll animation and redesigned stat legibility.
- Audited and corrected a systemic player-rating bug across roughly 1,690 entries and restructured the tier-rating scale, resolving accuracy complaints raised directly by playtesters.

Aqua Integrity Pool Services — Business Website | *UX/UI Designer* | *Squarespace, Jotform, QR Code Generation* 2026

- Owned end-to-end design and build for a new pool-service business with no prior digital presence, from brand identity through launch, with no designer-developer handoff.
- Developed a complete visual brand identity (color palette, typography, and messaging) to establish market trust and credibility for a first-time business owner.
- Designed and implemented a technician-level QR referral system, routing scanned leads to dedicated intake forms, giving the owner full visibility into lead source and conversion.

PROFESSIONAL EXPERIENCE

Website Design Contractor | *Aqua Integrity Pool Service, San Diego, CA* May 2026 – Present

- Partnered directly with the business owner to define project requirements and priorities, functioning as both product owner and primary stakeholder throughout the design process.
- Balanced business constraints (budget, platform limitations, timeline) against user experience goals, mirroring the trade-off conversations typical of cross-functional product teams.
- Delivered a live, production website that continues to serve as the client's primary customer acquisition channel.

Front Desk Administrator | *Prehab San Diego, San Diego, CA* Jan 2025 – Present

- Manage all front desk communications with new, prospective, and current clients regarding scheduling, payments, and intakes; design monthly newsletters and marketing materials for events.

Manager | *SoleSeattle, Lynnwood, WA* 2022 – Dec 2024

- Gathered insight on customer spending to report best-selling products to ownership and led new product negotiation with sellers.

Manager | *Sneak City, Lynnwood / Seattle / Tukwila, WA* 2020 – 2022

- Promoted to oversee operations across three locations, scaling repeatable customer experiences; designed and curated Instagram content to foster engagement.

EDUCATION

UX Academy Certification | *DesignLab (Foundations + UX Academy)* Mar 2024 – Mar 2026

Completed 480+ hours of intensive design coursework

B.S. in Kinesiology | *Western Washington University* 2018
